

Humanitarian Supply Chain Management

ABOUT THIS TRAINING COURSE

We have specifically tailored this training for the logisticians in the Middle East; with the trust of the strategic role of logistics and logisticians in the relevance, efficiency and cost effectiveness of humanitarian programs.

This training course aims to give you capacities to successfully manage the supply chain operations of your humanitarian projects and reduce the costs at the benefit of the supported populations.

From the early phases of project design to the delivery on the field and the last mile, we will address the keys to imagine integrated procurement, transport and storage-inventory strategies and find key success factors to implement it within a team. We also integrated in this training, the most current trends in the sector such as fight against corruption and integration of ethical and sustainable analysis in the humanitarian supply chain.

The training will finally leave you a large space to share your experiences and learning together through case studies inspired by the regional humanitarian logistics challenges in the Middle East.

Our open training courses participants gave them an average score of 3.8/4 in 2020.

Day 3: Storage and inventory strategies, warehouse management systems, managing stock levels

Day 4: Transportation strategies, rules and regulations, contracting, managing the risks

Day 5: Case study on integrated supply chain challenges in the Middle East

PREREQUISITES

Profile

This training course is for you if you meet one of the following criteria:

- You already work as a logistician and you want to improve your skills in supply chain management
- You work in project management and you need to better understand supply chain management
- You are an aid worker and you wish to develop a career in logistics

Prerequisites

To have previous experience in humanitarian sector

APPLICATION

Step 1: Application

The deadline for applications is two weeks before the start of a training course. Given the limited number of places for each course, it is preferable to apply as early as possible. If you are receiving support, it is recommended that you apply no later than 3 weeks before the start of the course.

To apply by clicking on the « Register » button below, please have your CV in PDF format. You will then receive an order form to return to us. Your application will be studied once you have completed and returned this order form.

Step 2: Pre-registration

If your application meets the necessary prerequisites, you will receive a pre-registration email. In order to finalize your pre-registration, you will be asked to pay the full amount of the training fees within a given deadline.

If you benefit from a partial or total coverage of the training (by an OPCA or by your employer), the financing agreement will have to stipulate the amount covered by the organisation.

Step 3: Registration

Once the payment of the training fees or the financing agreement of your OPCA is received, you will receive a final registration email, accompanied by a convocation with all the practical details relating to the training.

ERBIL

TRAINING CREATED BY

Guillaume Noailly

After a first part of his career in private sector logistics and the coordination of photovoltaic power plant sites, Guillaume became involved in humanitarian work in 2010. He has been deployed as a logistician, but also in general security coordination, in a variety of contexts ranging from emergency contexts (Nepal, Haiti, Pakistan) to complex crises such as in the Democratic Republic of Congo, Iraq or Afghanistan. He also worked for 3 years at Handicap International's head office in the recruitment of "logistics and security" profiles for emergency responses. Guillaume has been a member of the Bioforce team since 2019.
