

We train relief workers to ensure vulnerable populations worldwide are provided with effective aid.

We provide solutions to enable vulnerable populations to have access to high quality assistance. Both in France and abroad,

| We train men and women to respond effectively to humanitarian crisis,

| We support capacity building for international and local humanitarian organisations,

| We help shape the aid sector.

Job Announcement | Bioforce is looking for

English/Arabic-speaking WASH experts/trainers based in the Middle East

BACKGROUND

Due to the significant humanitarian needs in the Middle East, and the necessity to support the capacity building of relief and development actors in the region, Bioforce aims to expand our network of expert WASH consultants to increase the quality and availability of WASH training and support services.

We are looking for dedicated Arabic-speaking WASH experts based in the Middle East with skills and experience in training and capacity building.

The trainers / consultants will be in charge of the preparation and facilitation of WASH training modules or other capacity building activities in line with Bioforce's overall Framework.
